Senior PHP Engineer (f/m)

full-time permanent/asap

e2 is an independent, internationally-oriented agency with focus on sports and sports betting. Our business fields include media and marketing, as well as production and syndication of sports data. Furthermore e2 provides the conception of target group relevant products across all platforms (web, mobile and app), the creation and execution of cross media campaigns together with marketing consulting on c-level.

Your Role

- Development, enhancement and maintenance of our in-house applications
- Provide technical insight and support during the concept phase & technical documentation
- Integrate projects into our CI pipeline
- Work mostly on backend related services including a REST API and an ETL application
- Development of Wordpress plugins and integrate our sports-data
- Develop dynamic widgets using EcmaScript 6 based on a WebPack based pipeline
- Write clean code and care about PHP Notices & Warnings

Our Offer

- Broad range of tasks
- Exciting challenges in a young, international team and flat hierarchy
- Opportunity to integrate your own ideas
- We foster an open-minded work culture

Your Skills and Experience

- A minimum of 5 years experience in developing PHP applications
- Strong knowledge in PHP 7 and object-oriented programming
- Commitment to test-driven development, high-quality code and continuous learning
- Profound MySQL skills expected and DevOps experience is advantageous
- Solid knowledge of the English language (English is our main communication language)
- It is an advantage if you have experience with the tools used in our technical environment: Docker, Selenium, Varnish, Jenkins, Node, you can choose the OS & IDE that works best for you (but adhere to PSR-2)

Hard Facts

- We offer a minimum monthly gross salary of € 3,200 which is negotiable depending on experience and qualifications. If you are interested, please send us your application (CV & cover letter) via email.
- Location: Vienna
